DESPERATE PARENTS

Being parents isn't an easy job ! An everyday life's portrait of two couples and their children ... The Bouleys refuse to give the strict education they received to their own children, whereas the Lepics are quite satisfied with who they've become and advocate the virtues of the old methods. Problem: they are often out of touch with the real world and current values. The Bouleys focus more on dialogue than authority, the Lepics emphasize on education rather than emotions. And things won't get easier with the arrival of the Lenoir, a new family who settles down in the neighborhood and sparks off everyone's curiosity...
